🪪 PROFESSIONAL SUMMARY

Frontend Web Developer with **3 years of experience** in designing and implementing **responsive, user-centric web applications** and interfaces. Proficient in **UI/UX design** and **Frontend/UI development**, with expertise in **HTML5, CSS3, JavaScript, React, Angular,** and **Material UI**. Demonstrated ability to create scalable, visually consistent, intuitive user experiences across diverse platforms and devices. Skilled in **prototyping, wireframing**, and transforming design concepts into high-quality, production-ready code. Experienced in conducting user testing, gathering feedback, and collaborating with **cross-functional teams** to deliver **seamless, high-performance applications**. Committed to staying ahead of emerging industry trends, mentoring team members, and continuously refining **design and development processes** to maximize usability and efficiency.

🧩 TECHNICAL SKILLS

- **Frontend Technologies**: HTML5, CSS3, SASS, JavaScript, React, Angular, Bootstrap, Material UI.
- **Software Development Practices**: Agile/Scrum, Test-Driven Development (TDD), Debugging/Performance Optimization, Responsive Design/User Experience, Version Control (Git/GitHub).
- **Tools**: Figma, Adobe Photoshop, Material UI, VS Code, NPM, security frameworks.

💼 WORK EXPERIENCE

Frontend Web Developer   02/2021 – 05/2024
UtoR Solutions   Islamabad, Pakistan

- Translated complex Figma designs into reusable, modular components using React, ensuring optimal performance and adherence to modern design standards.
- Built web applications with web development using **HTML, CSS, SASS, JavaScript, Material UI, Bootstrap,** and **Angular.**
- Led development of scalable, secure web applications focusing on user experience, contributing to projects with high availability and efficiency.
- Converted Figma designs into front-end code with **HTML, CSS**, **Bootstrap, Javascript,** and **ReactJS.** Spearheaded translation of complex Figma designs into dynamic, pixel-perfect UI components, delivering exceptional user experiences.
- Worked with a team of developers to resolve multiple front-end issues.

UX/UI Developer Internship   07/2022 – 10/2022
National Information Technology Board   Islamabad, Pakistan

- Convert **PSD** to **HTML**.
- Designed and prototyped intuitive user interfaces using Figma, delivering user-friendly experiences for web and mobile applications.
- Convert **Adobe XD** to pixel-perfect **HTML, CSS, Bootstrap, and React** code.
- Implemented responsive web designs with Bootstrap, adhering to accessibility and performance best practices.
- Create **UI/UX** design using **Figma** and **Adobe XD**.
- Develop websites using **HTML, CSS, Bootstrap, JavaScript,** and **React**. Contributed to the design of scalable systems by integrating modern UI frameworks and adhering to usability best practices.

📁 PROJECTS

UtoR Digital,
Developed a scalable company website.　(Live ↗)
Tools: **React, HTML, CSS, Bootstrap**, and **JavaScript**.

Taxivan,
Built a ride-hailing platform focused on user-centric design and performance.　(Live ↗)
Tools: **HTML, CSS, Bootstrap, Angular and JavaScript.**

Umile,
Built an engaging web solution, enhancing user interactions with intuitive and responsive interfaces.　(Live ↗)
Tools: **HTML, CSS, Bootstrap**, **Angular** and **JavaScript**.

Grait,
Developed an interactive web solution with modern design for a dynamic user experience.　(Live ↗)
Tools: **HTML, CSS, Bootstrap**, **Angular** and **JavaScript**.
